

Does your child...

...look at computers,
TVs or whiteboards daily?

...quickly wear out their lenses
with lots of scratches?

...ever complain of headaches
or tired, watery eyes?

...have a hard time keeping
their glasses clean?

Help your kids learn, play and
look better with the optimal choice
for their vision, and the durable
choice for their active lifestyle.

Learn Better

80% of everything children learn is through their eyes

Glare from whiteboards, bright windows, fluorescent lighting and computer screens diminishes kids' vision, gives them headaches, and makes it hard to learn. Crizal® No-Glare lenses perform better in the classroom, helping students stay engaged and less distracted.

Play Better

Impact resistant with 100% UVA / UVB protection

With exceptional impact resistance and full UV protection from Airwear®, plus the top-notch scratch protection and easy to clean nature of Crizal, you will get peace of mind while giving your child continuous clarity, durability and comfort.

Look Better

Cuts distracting glare by reflecting less than 1% of light

Ordinary lenses can reflect up to 18% of light. By reflecting less light, Crizal No-Glare lenses prevent unsightly glare, keeping the focus on your child's eyes and stylish frames instead of unsightly reflections.
